

36132 to 36135—Continued.**36134.** CALYDOREA SPECIOSA (Hook.) Herbert.

“(No. 104.) A species resembling *Sisyrinchium* which may prove valuable as an ornamental. It was past the blooming period when seen. Found in the forest some distance south of Lago Villarica.”

36135. SOPHORA TETRAPTERA J. Miller.**Pelu.**

“(No. 105.) A small leguminous tree with ornamental foliage, superior to the well-known *Sophora japonica*. The flowers were not seen, but they are said to be large and yellow.”

36136. MEDICAGO ARABICA (L.) All.**Bur clover.**

From Kingsboro, N. C. Purchased from Mr. J. C. Killibrew. Received August 29, 1913.

36137 to 36159.

From Chile. Collected by Mr. W. F. Wight, of the Bureau of Plant Industry. Received June 10, 1913.

Quoted notes by Mr. Wight, except as indicated.

36137. (Undetermined.)

“(No. 114. February 17, 1913.) A shrub about 8 feet high of rather spreading habit and with dark-green foliage. It produces an abundance of reddish flowers about one-half to three-fourths inch long. Found in a moist situation close to the shore of Lago Villarica.”

36138. (Undetermined.)

“(No. 118. March 5, 1913.) A small shrub from 1½ to 6 feet high, belonging to the family Myrtaceæ. The foliage is ornamental, but it is particularly striking when loaded with white berries, which vary from three-eighths to five-eighths inch in diameter and are edible. The berries, however, lack character, though by selection it is possible the quality could be improved.”

36139. PERNETTYA MUCRONATA (L. f.) Gaud.

“(No. 120.) A small shrub from 1½ to 6 feet high belonging to the family Ericaceæ. The foliage is ornamental, but the shrub is particularly striking when loaded with pink fruits, which are from three-eighths to five-eighths of an inch in diameter and are edible. The berries, however, lack character, though by selection it is possible the quality could be improved.”

For previous introduction and description, see S. P. I. No. 35990.

36140. UGNI MOLINAE (Barn.) Turcz.**Murta.**

(*Myrtus molinae* Barn.)

“(No. 123. Concepcion, Chile.) An ornamental shrub with edible red berries, from the east end of Lago Rinihue. For further notes, see No. 42 [S. P. I. No. 36132].”

For previous introduction and description, see S. P. I. No. 35992.

36141. (Undetermined.)

“(No. 137. Lancotrara, Chile.) An ornamental shrub with handsome red berries.”
